

Sustainable Withdrawals – How Do You Know?

Sunday, 27 August, 11:00 am
World Water Week 2017

Programme

Countries in Latin America and Africa are *measuring* water resources and water demand, *modeling* scenarios, and *managing* water use through allocation systems so that decisions regarding future development can be based on knowledge regarding sustainable rates of water withdrawal.

- 11:05 **Keynote Dialogue** -- Sergio Campos, IDB and Bob Dykes, RTI
- 11:25 **IDB Support for Sustainable WRM** -- Mauro Nalesso, IDB
- 11:35 **Initiatives and Progress Toward Sustainable Withdrawals**
 - Ecuador** -- Carlos Arias, Water Secretariat
 - Kenya** -- Boniface Mwaniki, Water Resources Authority
- 12:00 **Audience and Panel Discussion**
- 12:30 **Close of session**
