

# Central Asian Youth Forum on Water

**cayfwater**

# Vision the Youth Central Asia

We believe that involving more young professionals in the water sector can increase the access to safe drinking water, sanitation and hygiene in Central Asia.

We, the Youth, commit to provide our communities with a better understanding of water and sanitation issues. We will actively educate each other, share our knowledge and experiences with others.

We request more Governments attention to the pilot projects that are being implemented by young people to make their involvement valuable.

# Mission

- Empower young water professionals in CA in offering knowledge based solutions oriented to respond to needs of business, decision makers and civil society at local, national and regional levels of water management;
- Create an opportunity for young professionals for further professional development via participation in existing senior water professional's networks; (with CAMP4ASB project);
- Conduct youth advocacy to ensure youth recognition as an important stakeholder in the decision-making for water sector and to raise youth awareness about water issues.

# Development plan

- CAYFWater concept development for 3 years
- CAYFWater structure development
- Implementation of national projects
- CAYFWater members participation in regional and national water events
- Collaboration with regional and national ecological organizations and government structures
- Webportal development and youth information coverage.
