

**C40 IS WORKING
TO TURN THE PARIS
AGREEMENT FROM
ASPIRATION TO ACTION**

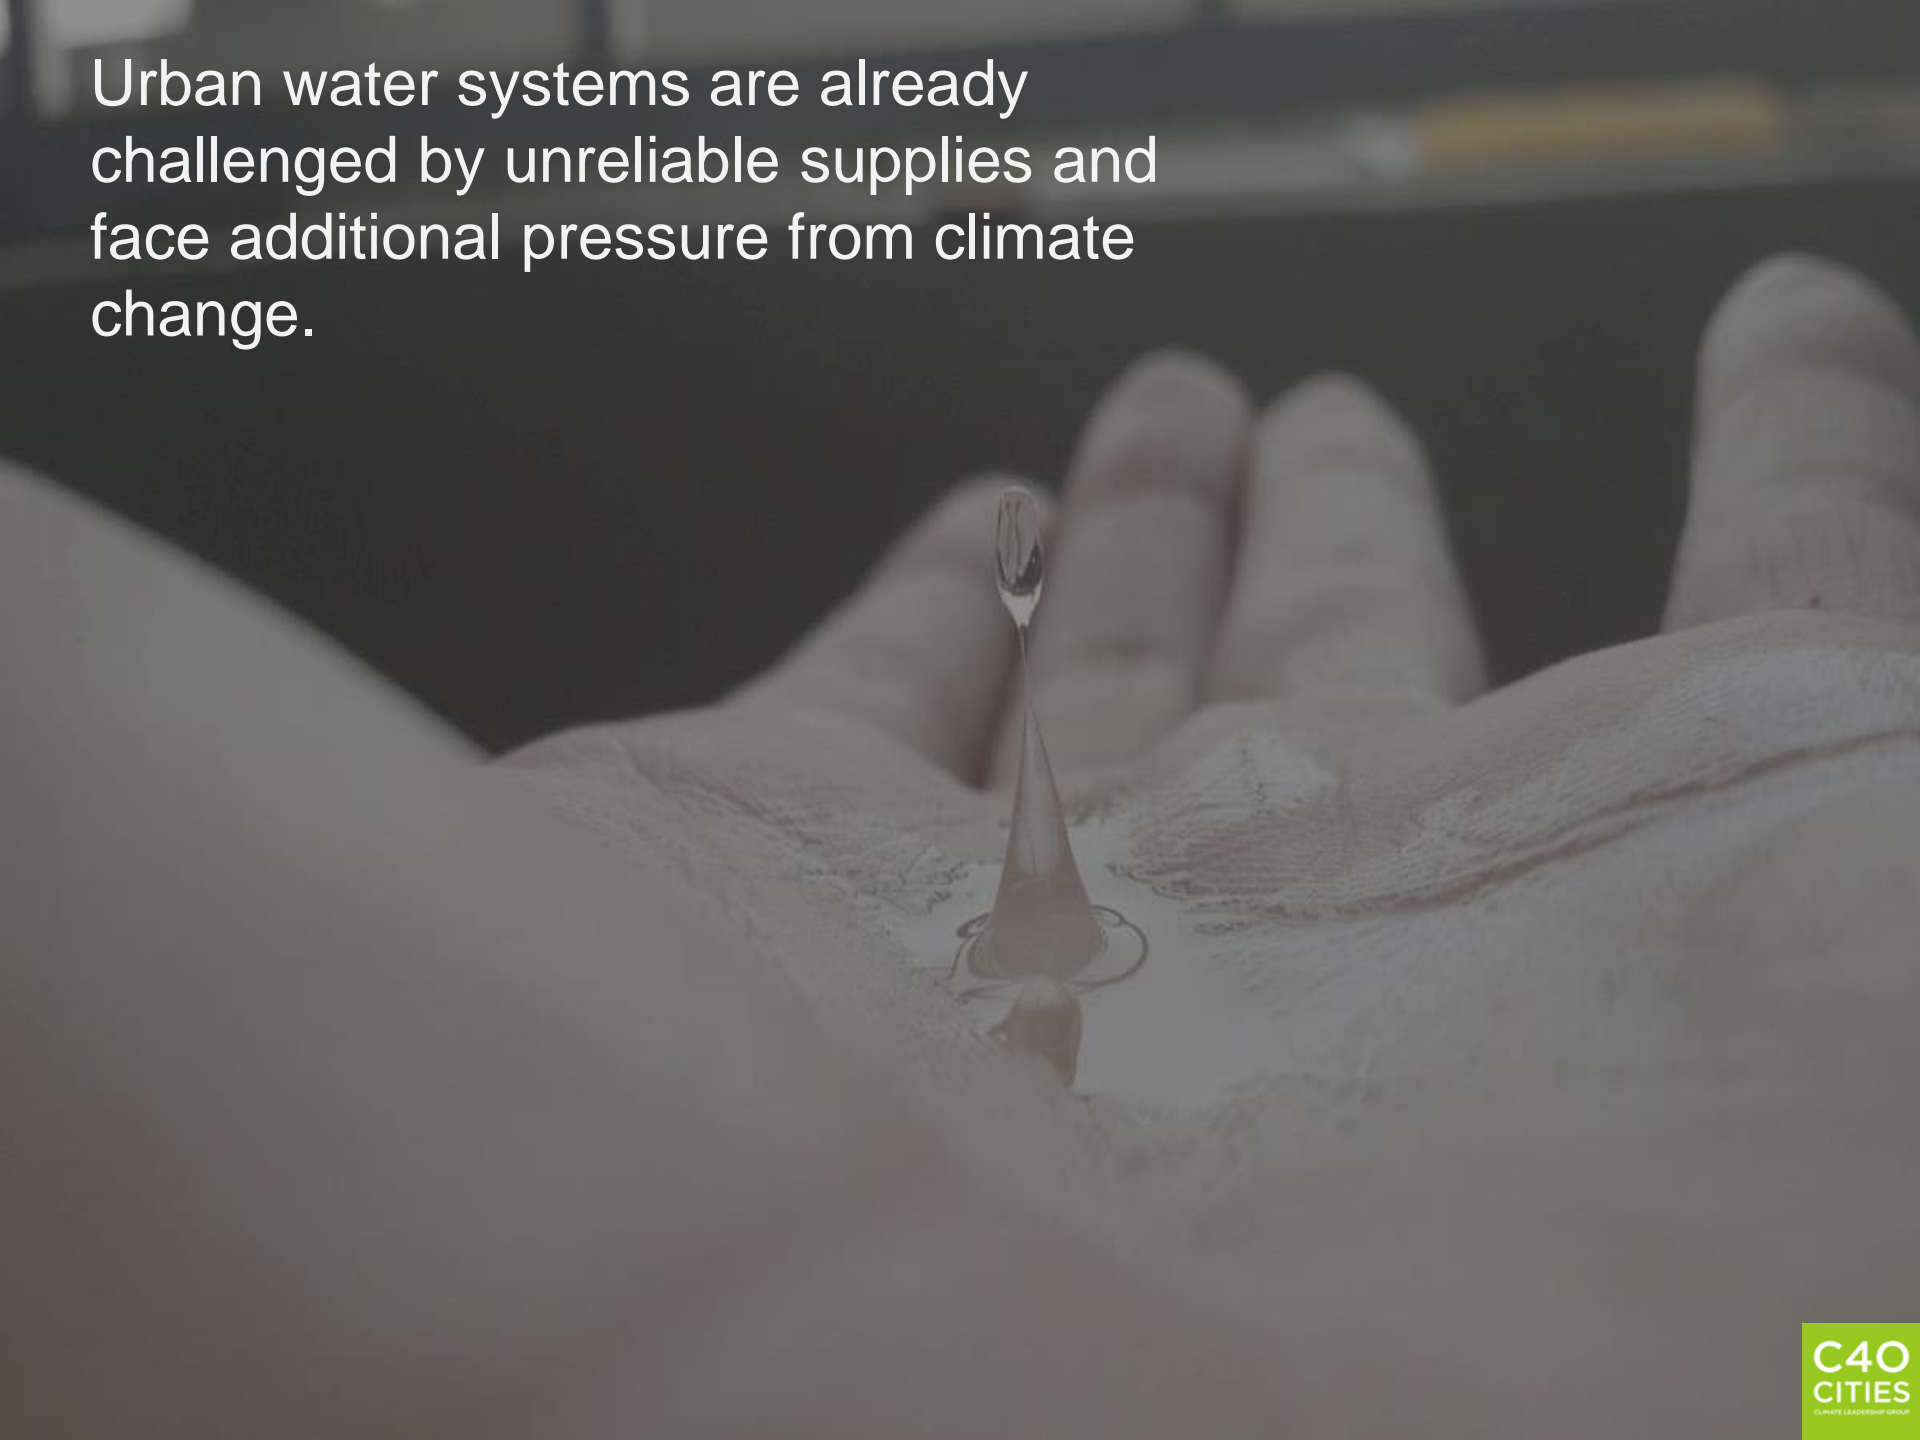

THE FIRST
SIGNIFICANT
ROADMAP
FOR
TURNING
THE PARIS
AGREEMENT
FROM
ASPIRATION
TO ACTION

70% of C40 cities are already experiencing the impact from climate change today.

Urban water systems are already challenged by unreliable supplies and face additional pressure from climate change.

Energy use for water supply represents 7% of the total global consumption and some cities face huge water losses due to aging infrastructure

80% of all wastewater is released untreated. The sector is responsible for 10% of methane emissions.

CITIES CAN LEAD A GLOBAL TRANSFORMATION

GLOBAL EMISSIONS

**CITY ACTION CAN
DELIVER 40% OF
THE PARIS GOAL**

2100
