

ECAM for Unlocking Financing for Low Carbon Water and Wastewater Infrastructure

ECAM CREATES AN ENABLING ENVIRONMENT

The National Climate Change Policy and Sector Strategic Guidance Framework

- Identify NAMAs
- Biogas capture and energy utilisation

National Water Strategy
“Water for Life”

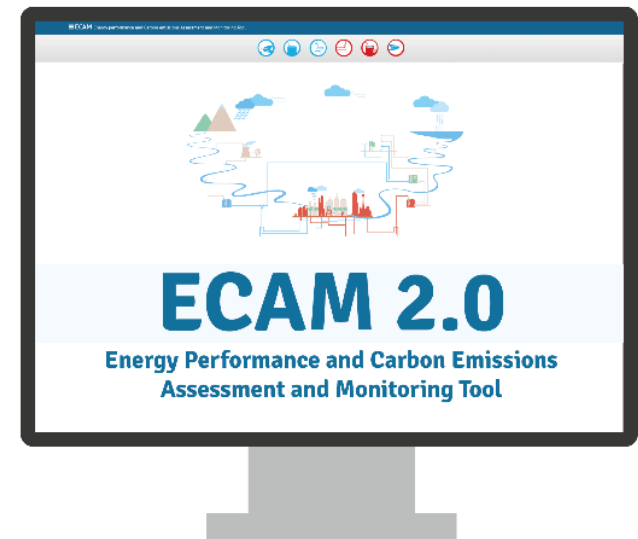

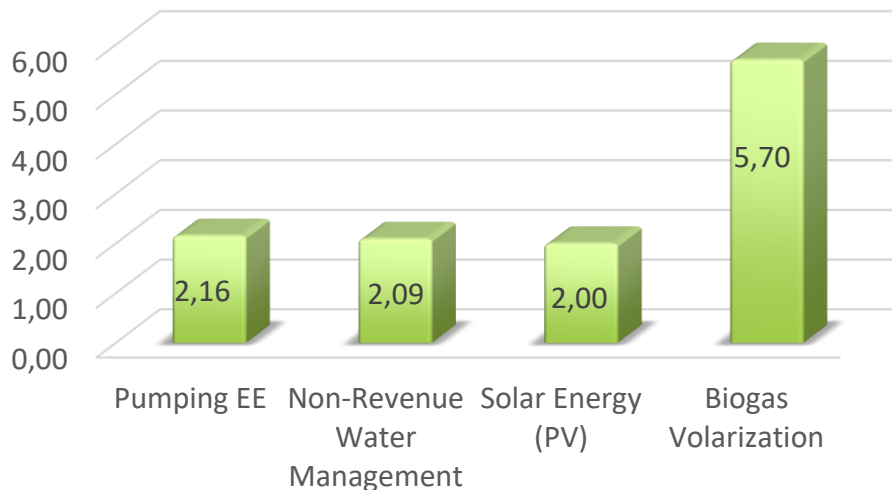

Energy Efficiency & Renewable Energy
Policy &
Action
Plan

- Consideration of mitigation measures in entire urban water cycle
- Set targets for GHG ↓
- Continuous and regular monitoring of GHGs in entire water cycle → **ECAM**

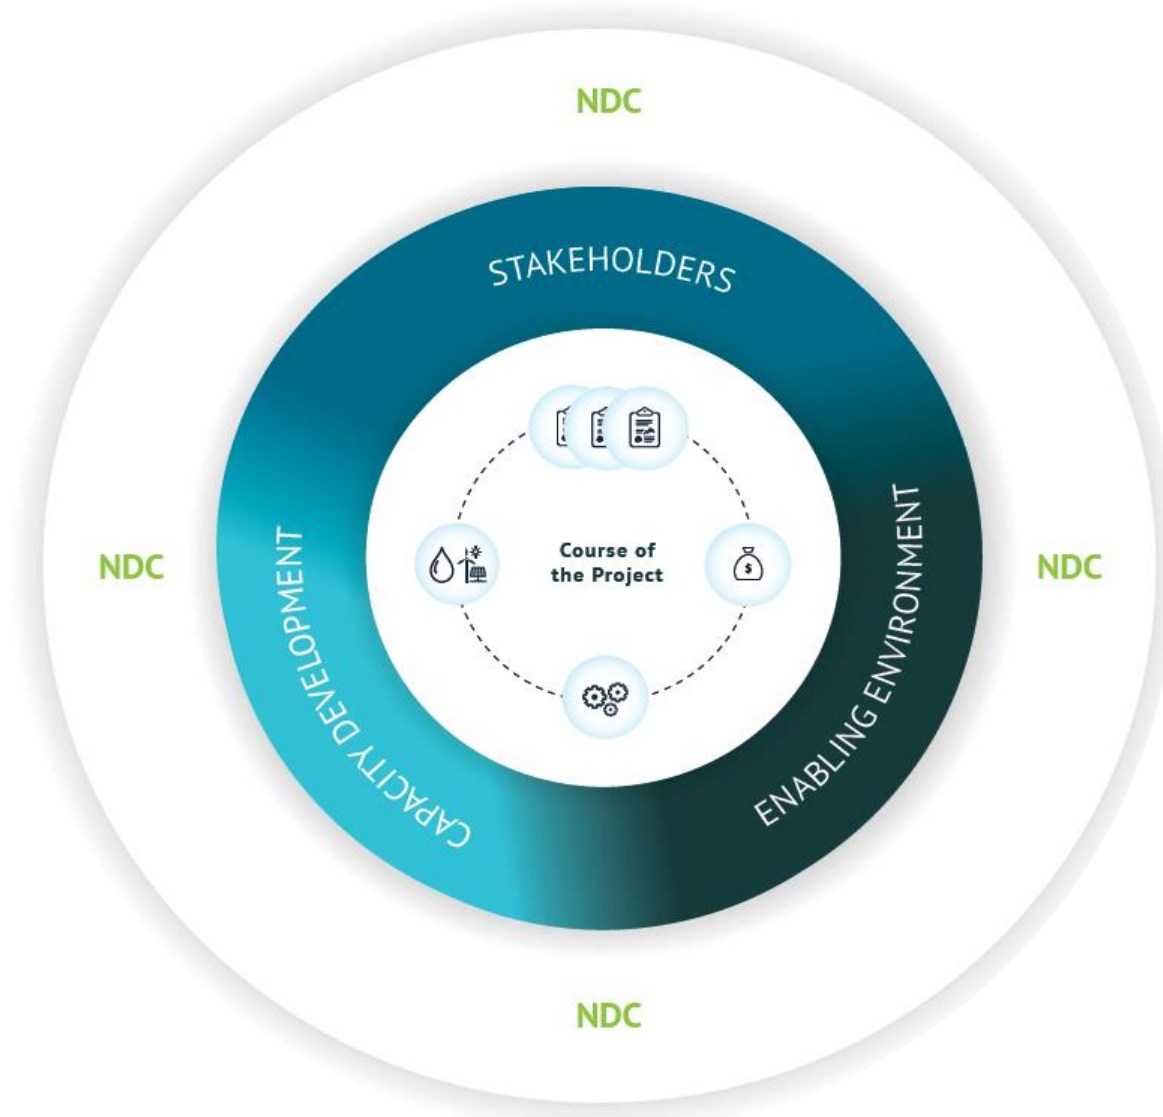

ECAM SUPPORTS THE DEVELOPMENT OF PROJECTS

Emission Reduction Potential (1000 tCO₂)

IMPLEMENTING NDCs

- What are the barriers to be addressed regarding up-scaling of mitigation actions in the water sector?
- What financing mechanism can be utilized to scale up these mitigation efforts?
