

water for people

Solid Fuel from Sludge

Water for People
PIVOT
Sanivation

Money from waste – a long held dream

- Ecosan and closing loops
- Fertilizer from Urine
- Soil improver from Feaces
- Vermi-compost from Tiger Toilets
- Poultry food from larva
- Biogas from wastewaste

False dawns

Green is good, but its not good enough to sustain

Green, better performance and cheaper are all required to succeed

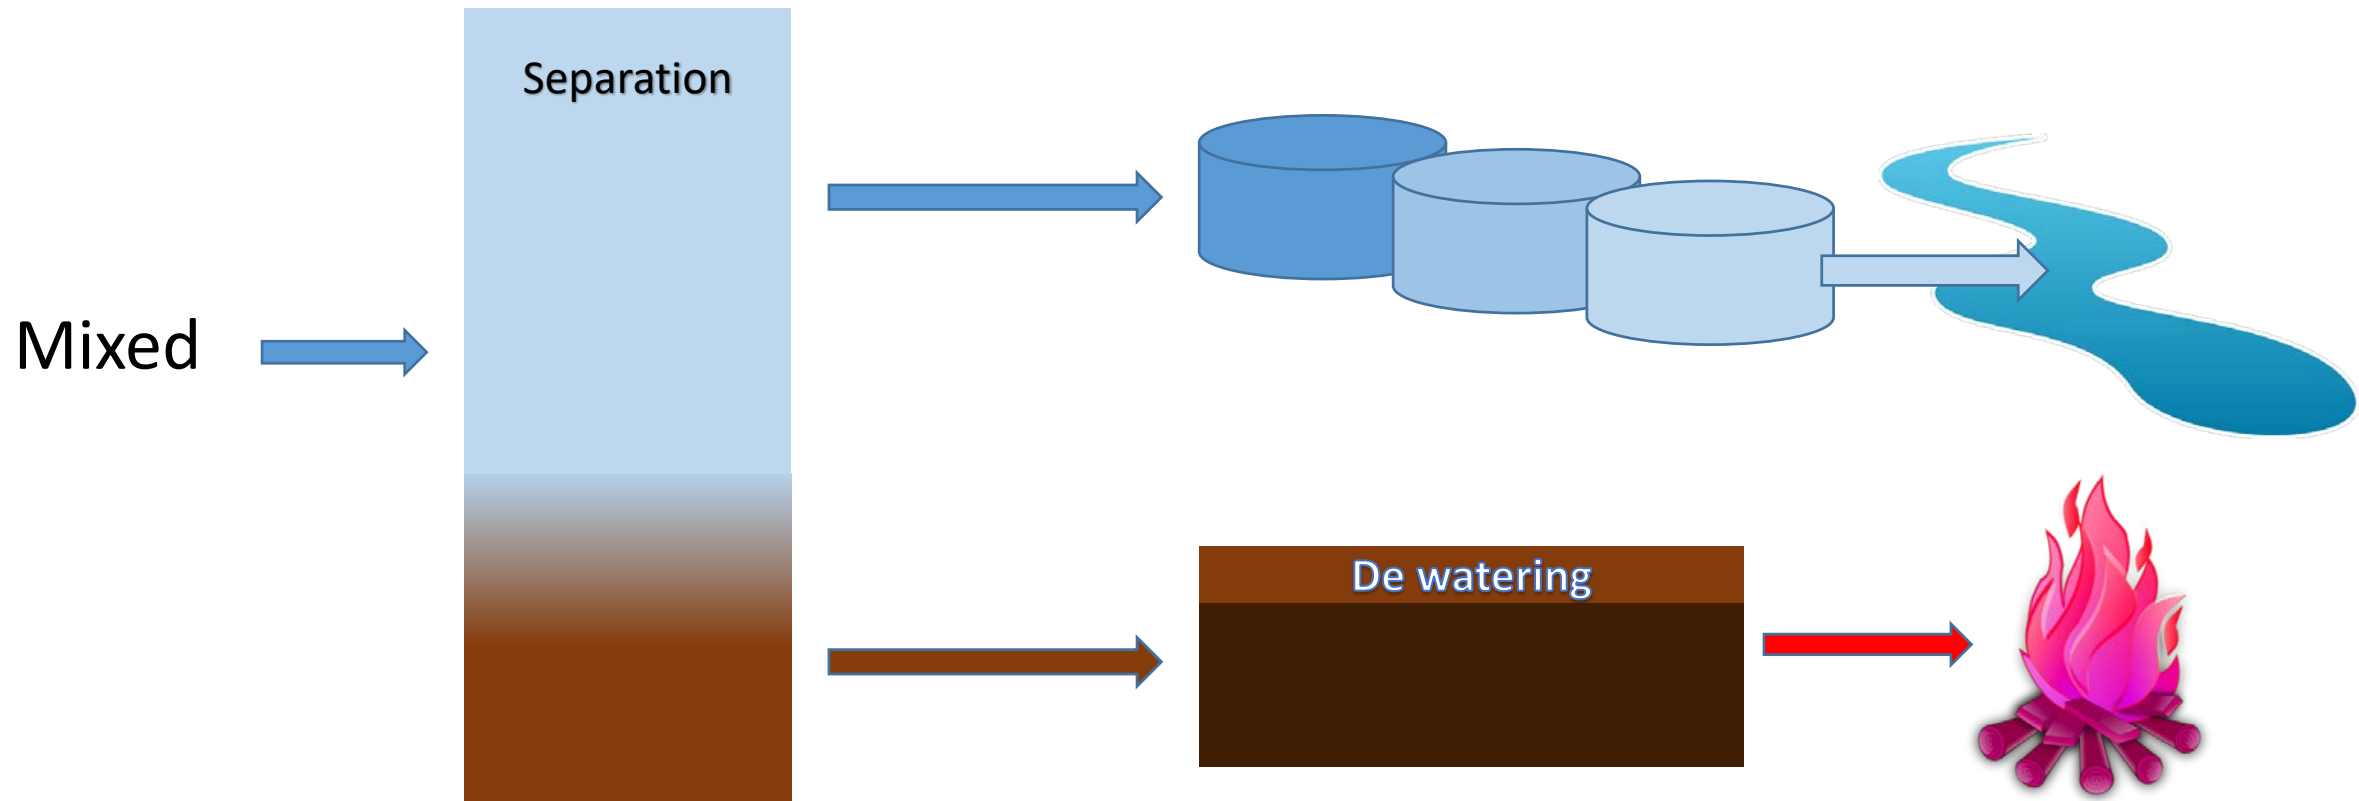

Economic argument is primary, the environmental argument is secondary

The solution – sludge to fuel

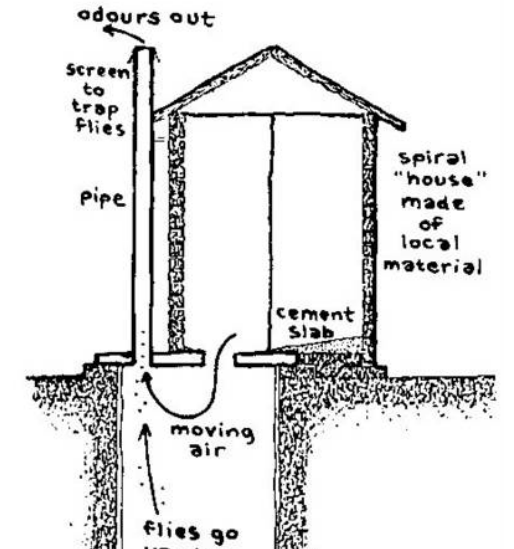

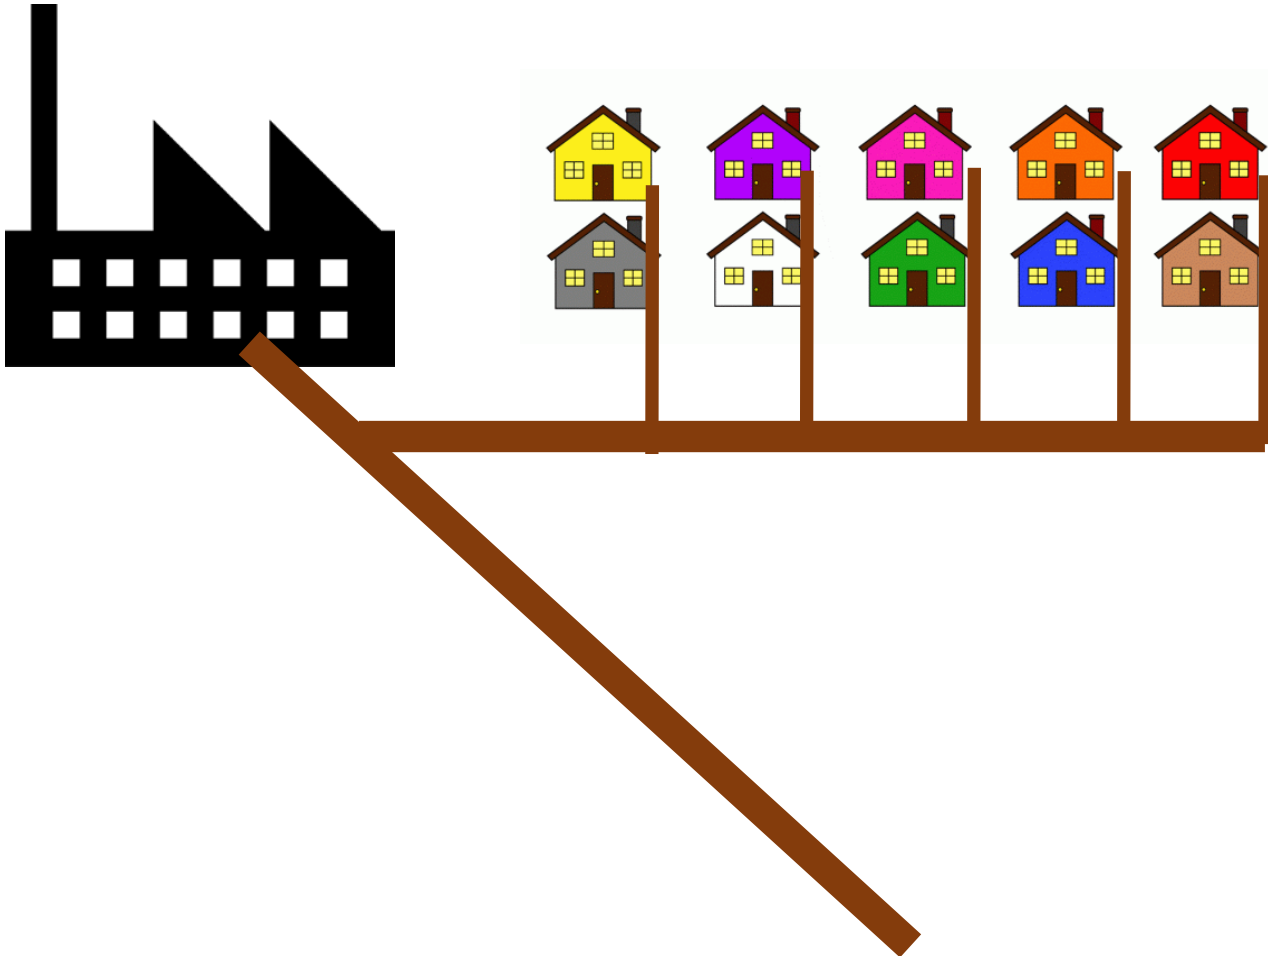

Strong environmental and strong
economic

The elusive Win: Win at last.

Waste (water) treatment

Difference in waste

Drying

Three presentations - 15 minutes plus 5 minutes for questions

- Kenya Sanivations – Emily
- Uganda - Water for People – Brenda
- Rwanda – PIVOT – Ashley

- Domestic market, Commercial market, Industrial market
- Range of options, range of markets, range of and OPEX

I am a customer - convince me

I am an investor - convince me
