

WASTEWATER TREATMENT AND REUSE IN MURCIA REGION

Pedro Simón Andreu
Technical Manager ESAMUR

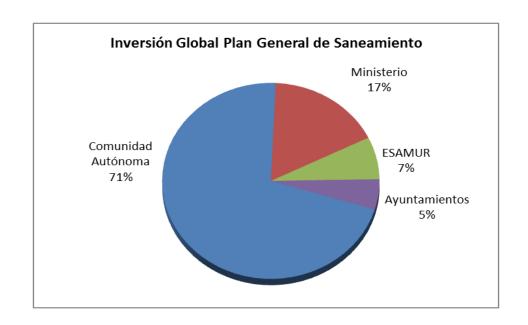

Management Model in Murcia Region

Changes in Sanitation Law:

- Assigning wider competence to the Regional Government
- Approving Master Plan for Urban Wastewater Sanitation
- Implementing a "Wastewater Reclamation Tax "
- Creating a Public Entity responsible for the monitoring, operation and maintenance of facilities

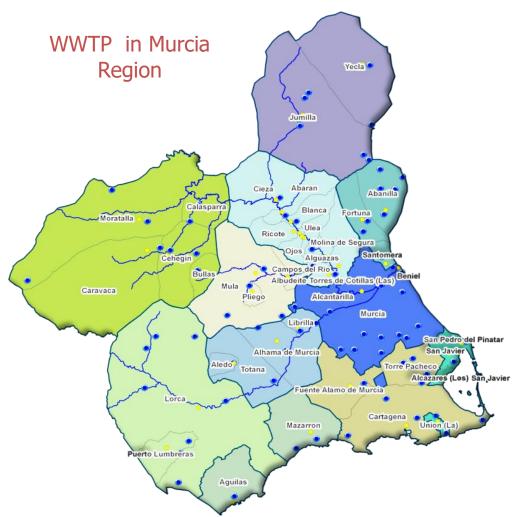

- Total investment Master Plan: 480 million €

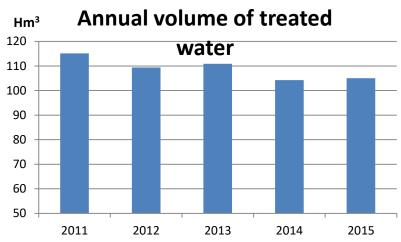

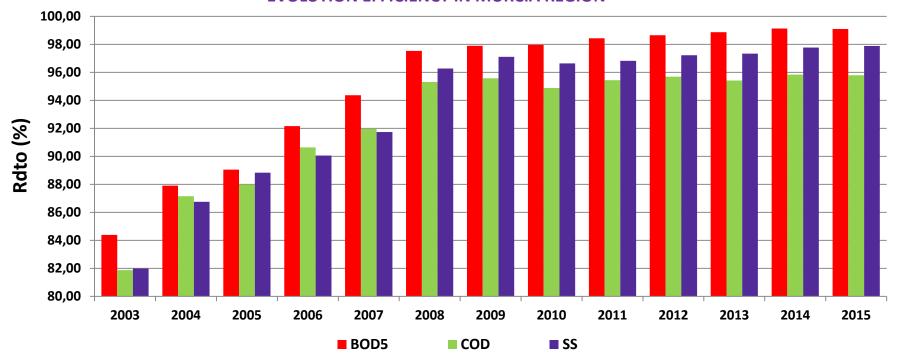

Number of WWTP	91
Population served	99,3 %
% Reuse	95 %

EVOLUTION EFFICIENCY IN MURCIA REGION

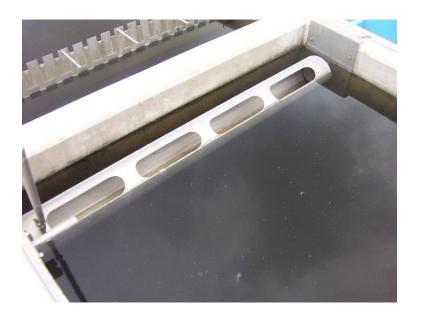

Physical-Chemical Process (coagulation and flocculation)

Lamella tube settler

FILTRATION

Sand Filters

Cloth Filter

Membrane Disc Filter

Ring- Filter

DISINFECTION SYSTEM

UV systems

Chlorine compounds

10 MBR facilities

KEY FIGURES YEAR 2015

O & M TOTAL COSTS	35,283,037,66 €
MONITORING TOTAL COSTS	2,275,240,06 €
WASTEWATER TREATED VOLUME	105,213,521,00 m3
AVERAGE COST O & M	0,335 €/m3 (0,356 €/m3)
