

# Seminar 6 Water and waste: the case of the textile industry

Session 1: Water Circularity

**SWEDEN  
TEXTILE  
WATER  
INITIATIVE**

# Seminar 6: Water and Waste

# Agenda

09:00 **Introduction: Laila Petrie**, WWF, and **Rami Narte**, STWI/SIWI

09:05 **Wastewater management in Egyptian textile industry sector. Rifaat Abdel Wahaab**, Holding Co. for Water and Wastewater

09:15 **From field to fashion: examining textile's grey water footprint. Christopher Briggs**, WFN

09:30 **Poster Presentation, Sohail Ali Naqvi**, WWF

09:45 **Fishbowl: Scalability, continuity, collaboration, barriers and potentials of water stewardship in manufacturing industry**

- **Rifaat Abdel Wahaab**, Holding Co.for Water and Wastewater
- **Christopher Briggs**, WFN
- **Zhao Lin**, STWI
- **Sohail Ali Naqvi**, WWF

10:25 **Conclusions. Laila Petrie**, WWF, and **Rami Narte**, STWI/SIWI

10:30 **Close of session**

**6.3** By 2030, **improve water quality** by reducing pollution, eliminating dumping and minimising release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally

**6.4** By 2030, substantially increase **water use efficiency** across all sectors and ensure **sustainable withdrawals** and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity

**6.5** By 2030, **implement integrated water resources** management at all levels, including through transboundary cooperation as appropriate

**12.2** By 2030, achieve the **sustainable** management and efficient use of **natural resources**

**12.4** By 2020, achieve the environmentally sound **management of chemicals** and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly **reduce their release to air, water and soil** in order to minimize their adverse impacts on human health and then environment

**12.6** Encourage **companies**, especially large and transnational companies, to adopt **sustainable practices** and to integrate **sustainability information** into their reporting cycle

# Fishbowl: Scalability, continuity, collaboration, barriers and potentials of water stewardship in manufacturing industry

## Instructions:

Panel discussion on key points raised by panelists

One panellist must voluntarily leave whenever a participant in the audience joins the panel

New participant on the panel shortly presents views or questions to the panel

**Let's have an open, constructive, inclusive dialogue and reflect on personal experiences, successes and failures (and lessons learned).**

# Seminar 6 Water and waste: the case of the textile industry

Session 2: Scalability and continuity of brand initiatives in the textile sector

**SWEDEN  
TEXTILE  
WATER  
INITIATIVE**

# Seminar 6: Water and Waste

# Agenda

11:00 **Introduction** Laila Petrie, WWF

11:05 **STWI initiative** Katarina Veem, SIWI

11:15 **The ZDHC wastewater discharge guideline for the textile industry** John Rydzewski, Nike Inc.

11:25 **Targets and textiles: Target setting in the private sector** Orlaith Delargy, CDP

11:35 **Fish Bowl: Catalysing scalable, continuous and collaborative approach for water stewardship, limitations of SMEs, visibility of programs, and root cause of failure**

- Baptiste Carriere-Pradal, SAC
- Elin Larsson, Fillippa K
- Maïke Hiltner, Adidas
- Katarina Veem, SIWI
- John Rydzewski, Nike Inc.
- Orlaith Delargy, CDP

12:25 **Conclusions** Petrie, WWF

12:30 **Close of session**

# Seminar 6 Water and waste: the case of the textile industry

*Session 3: Global business models and systemic changes to achieve SDGs*

**SWEDEN  
TEXTILE  
WATER  
INITIATIVE**

# Seminar 6: Water and Waste

# Agenda

14:00 **Introduction** Rami Narte, STWI/SIWI

14:05 **Taking Textile Water Stewardship to the next level**

Charlotte Järnmark, WWF, and Shariful Hoque, H&M

14:20 **Discussion: Global business models and systemic changes to achieve the SDGs**

Lisa Hook, GAP

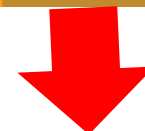

Laila Petrie, WWF

Dawn McGregor, China Water Risk

15:20 **Conclusions and recommendations**

Laila Petrie, WWF, and Rami Narte, STWI/SIWI

15:30 **Close of session**

**6.3** By 2030, **improve water quality** by reducing pollution, eliminating dumping and minimising release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally

**6.4** By 2030, substantially increase **water use efficiency** across all sectors and ensure **sustainable withdrawals** and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
