

Incorporating water governance in the annual monitoring and reporting framework

Stockholm World Water Week 2017, Seminar 8.
SESSION 1: “Revitalizing water governance concepts
towards 2030”

Thursday 31st August, 2017, 09:30 – 09:40

Rosemary Nakaggwa
Good Governance Advisor
GIZ

Ivan Biiza
Economist
Ministry of Water and Environment

Good Governance Working Group

- ▶ 40 member
 - public sector
 - private sector
 - civil society
 - development partners.

- Established in 2006

- ▶ Not a policing group but rather for internal support and self assessments

- ▶ Recommends specific measures to promote and monitor governance practices

- ▶ Now chaired by the Under Secretary (MWE)

- ▶ Good Governance Action Plan

Background

You can't manage
what you can't **measure**
Peter Drucker

Target resourcing

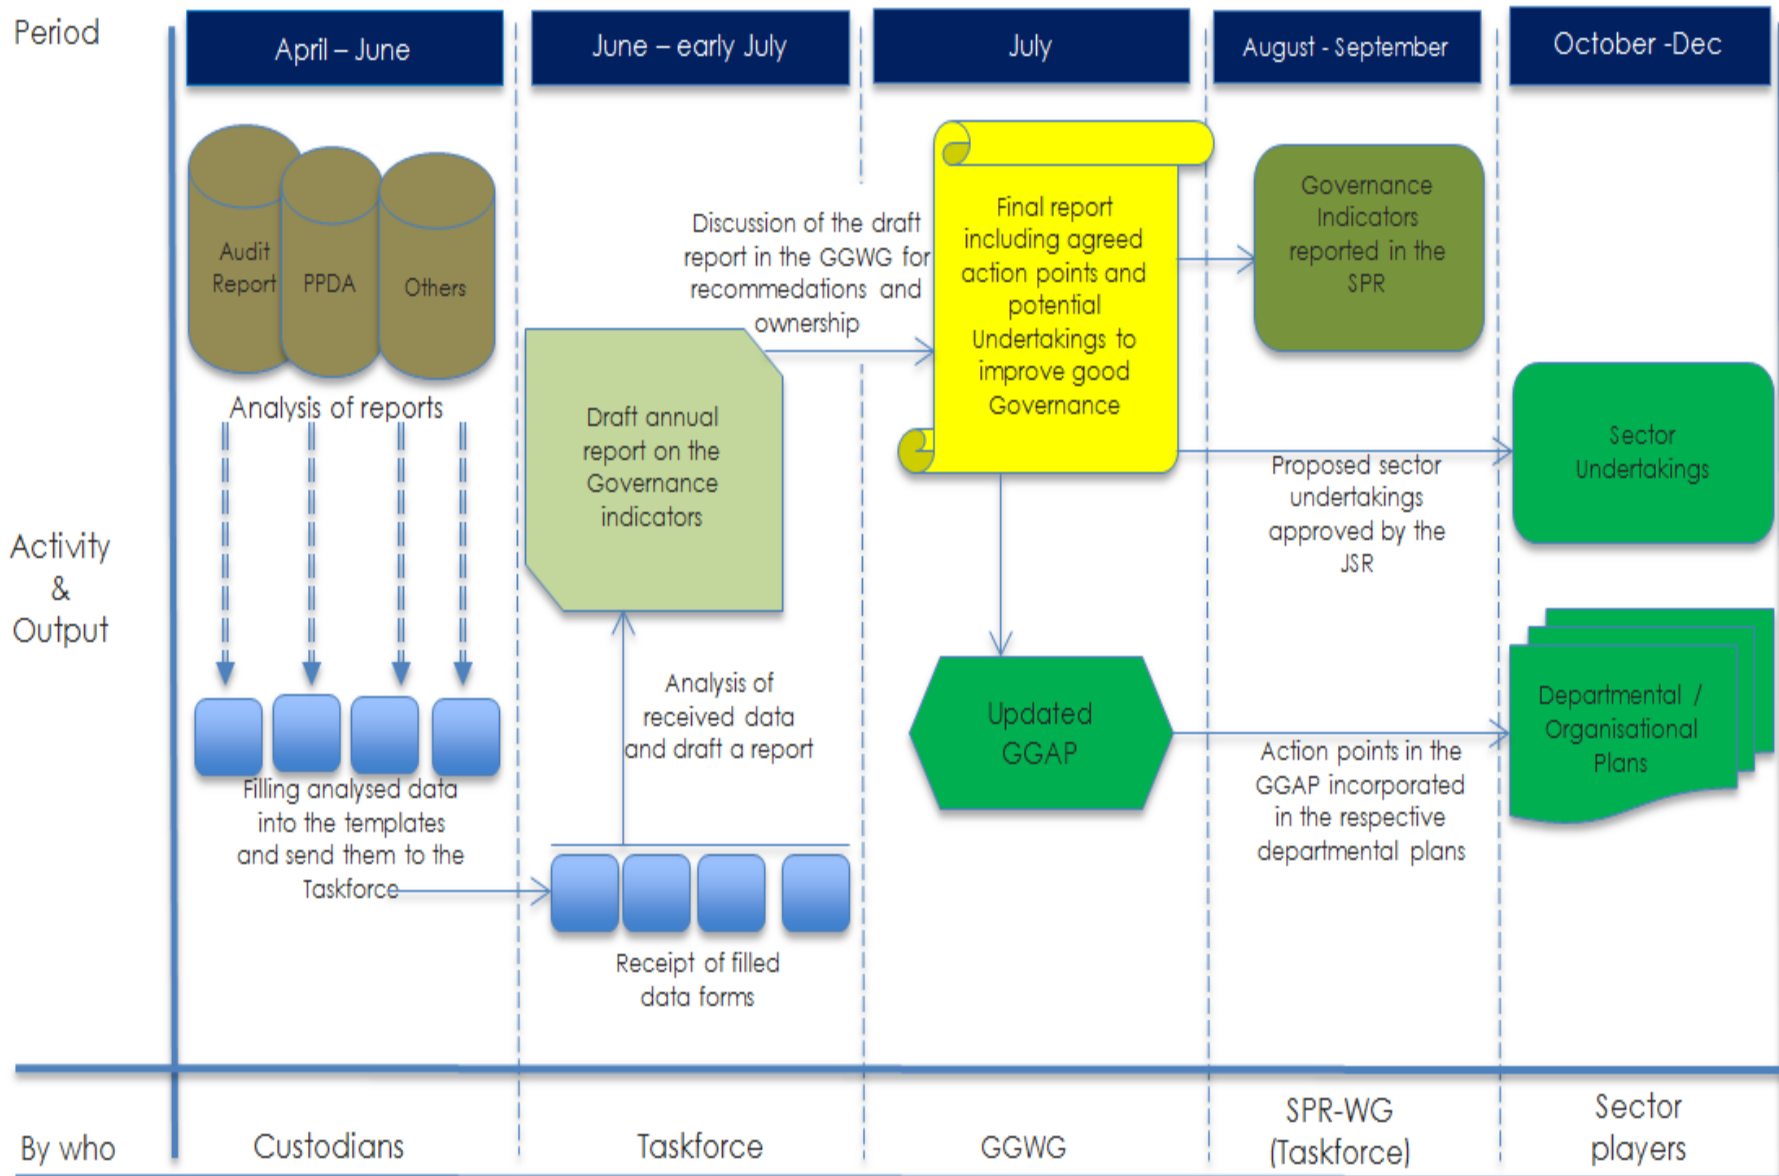

#	SDG Target
6b	Community participation in water & sanitation management.
16.5	Reducing corruption
16.6	Effective, transparent and accountable institutions
16.7	Ensure inclusive, representative, participatory decision-making
16.10	Access to information
16.b	Non-discriminatory laws and policies

SDGs

#	Indicator	Custodian
	Sector golden indicators informing on governance aspects	
1	% Implementation of the previous year's audit recommendations of financial statement	Internal Audit (MWE, NWSC, NFA, UNMA, NEMA)
2	Average weighed procurement performance	PDU (MWE, NWSC, NFA, UNMA, NEMA)
3	% Districts' budgets that reflect CSOs' contributions	RWSD
4	% of annual budget allocations, budget releases and actual expenditures in relation to sector funding needs' priorities	Policy and Planning (MWE)
5	% of Water Boards, Water Catchment Management Committees with women holding key positions	UWSD, RWSD, WfP, ENR
	Sub-Sector indicators informing on governance aspects	
6	% of pro-poor facilities that provide water at a price less than or equal to the household tariff of the service area.	UWSD, WURD
7	NWSC's customer satisfaction index	NWSC
8	% of gazetted water schemes and districts whose performance is published annually by the Regulation body	WURD
9	% of water for production facilities with actively functioning Water User Committees and irrigation Cooperatives	Water for Production
10	% of permit holders complying with permit conditions	WRM

Process chain for data collection, analysis and reporting of good governance

Facilitating factors

Use of existing reporting structures

No additional costs required

Participation of all stakeholders in the generation of indicators

Practicability of the criteria applied

Indicator	Urban	Rural
Indicator 1: % of people with access to electricity	77%	41%
Indicator 2: % of people with access to internet	44%	21%
Indicator 3: % of people with access to mobile phones	81%	61%
Indicator 4: % of people with access to banking services	58%	32%
Indicator 5: % of people with access to health services	52%	32%
Indicator 6: % of people with access to education services	52%	32%
Indicator 7: % of people with access to water services	52%	32%
Indicator 8: % of people with access to sanitation services	52%	32%
Indicator 9: % of people with access to housing services	52%	32%
Indicator 10: % of people with access to transport services	52%	32%
Indicator 11: % of people with access to employment services	52%	32%
Indicator 12: % of people with access to social services	52%	32%
Indicator 13: % of people with access to justice services	52%	32%
Indicator 14: % of people with access to culture services	52%	32%
Indicator 15: % of people with access to sports services	52%	32%
Indicator 16: % of people with access to tourism services	52%	32%
Indicator 17: % of people with access to environmental services	52%	32%
Indicator 18: % of people with access to disaster risk reduction services	52%	32%
Indicator 19: % of people with access to climate change services	52%	32%
Indicator 20: % of people with access to gender equality services	52%	32%
Indicator 21: % of people with access to youth services	52%	32%
Indicator 22: % of people with access to elderly services	52%	32%
Indicator 23: % of people with access to disabled services	52%	32%
Indicator 24: % of people with access to indigenous services	52%	32%
Indicator 25: % of people with access to migrant services	52%	32%
Indicator 26: % of people with access to refugees services	52%	32%
Indicator 27: % of people with access to internally displaced services	52%	32%
Indicator 28: % of people with access to returnees services	52%	32%
Indicator 29: % of people with access to victims of violence services	52%	32%
Indicator 30: % of people with access to survivors of violence services	52%	32%
Indicator 31: % of people with access to children services	52%	32%
Indicator 32: % of people with access to women services	52%	32%
Indicator 33: % of people with access to men services	52%	32%
Indicator 34: % of people with access to LGBTIQ services	52%	32%
Indicator 35: % of people with access to older persons services	52%	32%
Indicator 36: % of people with access to children with disabilities services	52%	32%
Indicator 37: % of people with access to women with disabilities services	52%	32%
Indicator 38: % of people with access to men with disabilities services	52%	32%
Indicator 39: % of people with access to LGBTIQ with disabilities services	52%	32%
Indicator 40: % of people with access to older persons with disabilities services	52%	32%

Criteria

1. Relevancy towards **improving service delivery** within the Sector
2. Reflection of **SDGs**
3. Should be within the **management control and capacity** of the sector.
4. Easy to identify and **collect the data**
5. Easy to compile, analyze and monitor through **existing reporting structures** or possible procedures if new
6. Governance Principles (Transparency, Accountability, Participation and Inclusiveness)

Challenges

- The Principle of participation - Waiting every one to be on board (interest) and agreeing on the concept is a challenging element that takes time – However, it is better to take it slow and reach far than rushing it and it dies shortly after the start.
- The concept of good governance is not yet well conceptualised by all sector players. It is taken to be a stand alone discipline like engineering, accounting,
- The broadness of good governance –confuses many

Thank you

**THE LESS YOU TALK,
THE MORE YOU'RE
LISTENED TO.**
