ARID AND SEMI ARID COUNTIES IN KENYA

In Kenya the ASAL areas occupy 80-89% of the country

**Repeated Drought
Inhibited Access to Food
Loss of Life and Livestock**

**Women and Children
are most vulnerable**

**Parents send children to school to feed them
through Free Public School Regime**

1 balanced meal

Poor Nutrition at home

Inadequate access to 3 meals per day

—

Simple Disruptive Technology

Access Food Supply Tenders Via SMS

Ready Market

+

Access to Information

48 Schools

13 FBOs

2,916 Farmers

1,534 = Women = 52%

Access to Information & Markets

Expanded Income

Parents Feed their Children

Focus on Studies rather than
Feeding only

Demand & Investment in Irrigation
solutions

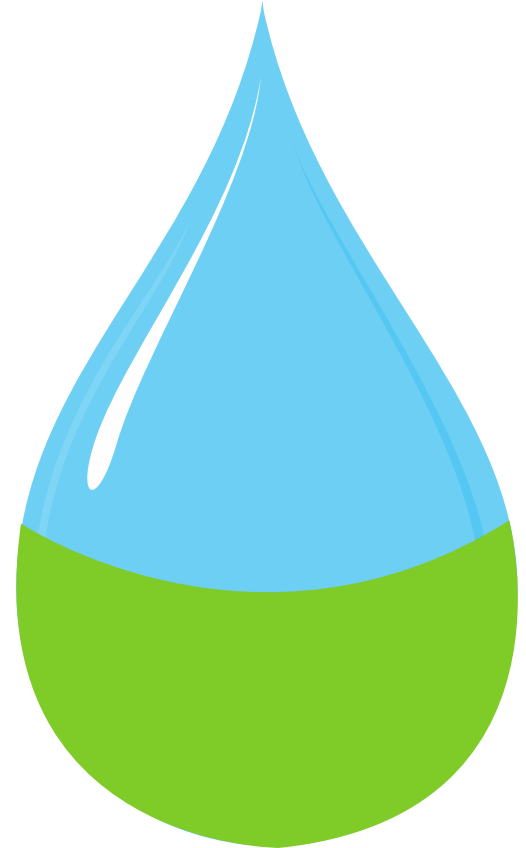

Expanded Dietary – Nutritional Intake - Fruits

2.9 million HA

4% = 3% of the GDP = 18% of the
value of all agricultural produce

Advanced Disruptive Technology
