

# Global Vision to Local Reality

## Identifying the Pathways

Supported by  
**wilo**  
foundation

# Water Youth Network is a leading youth-led global network of young professionals

# Water Issues, Cities, and the SDGs

- Rapid urban growth
- Increasing water demand
- Insufficient supply capacities
- More waste and wastewater

# Water Issues, Cities, and the SDGs

- Pollution of waterbodies
- Urban flooding
- Water scarcity

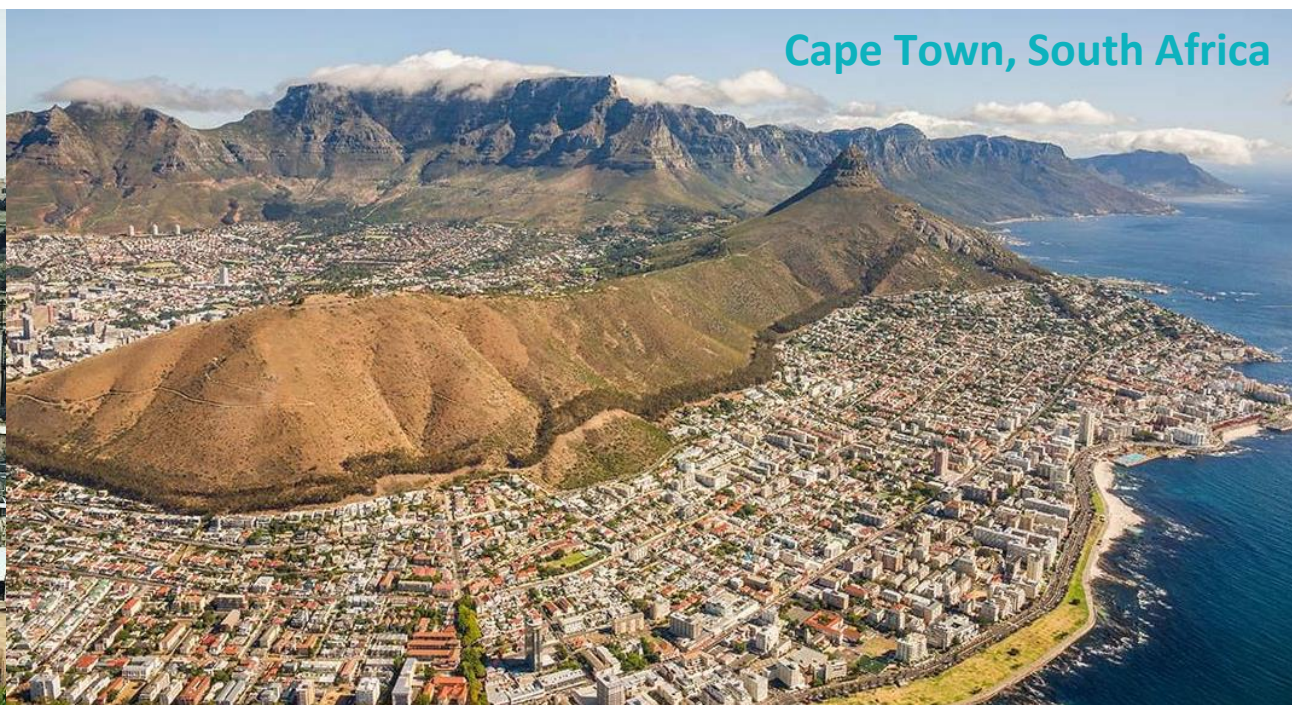

# Water Issues, Cities, and the SDGs

- Implications for the Sustainable Development Goals
- How do social, economic, and environmental conditions of a city influence actions and opportunities related to the SDGs?
- What can and should be done to face these challenges while also making progress towards achieving the SDGs?
- How can this be done?
- Who should act?

Amman, Jordan

Cape Town, South Africa

Hull, England

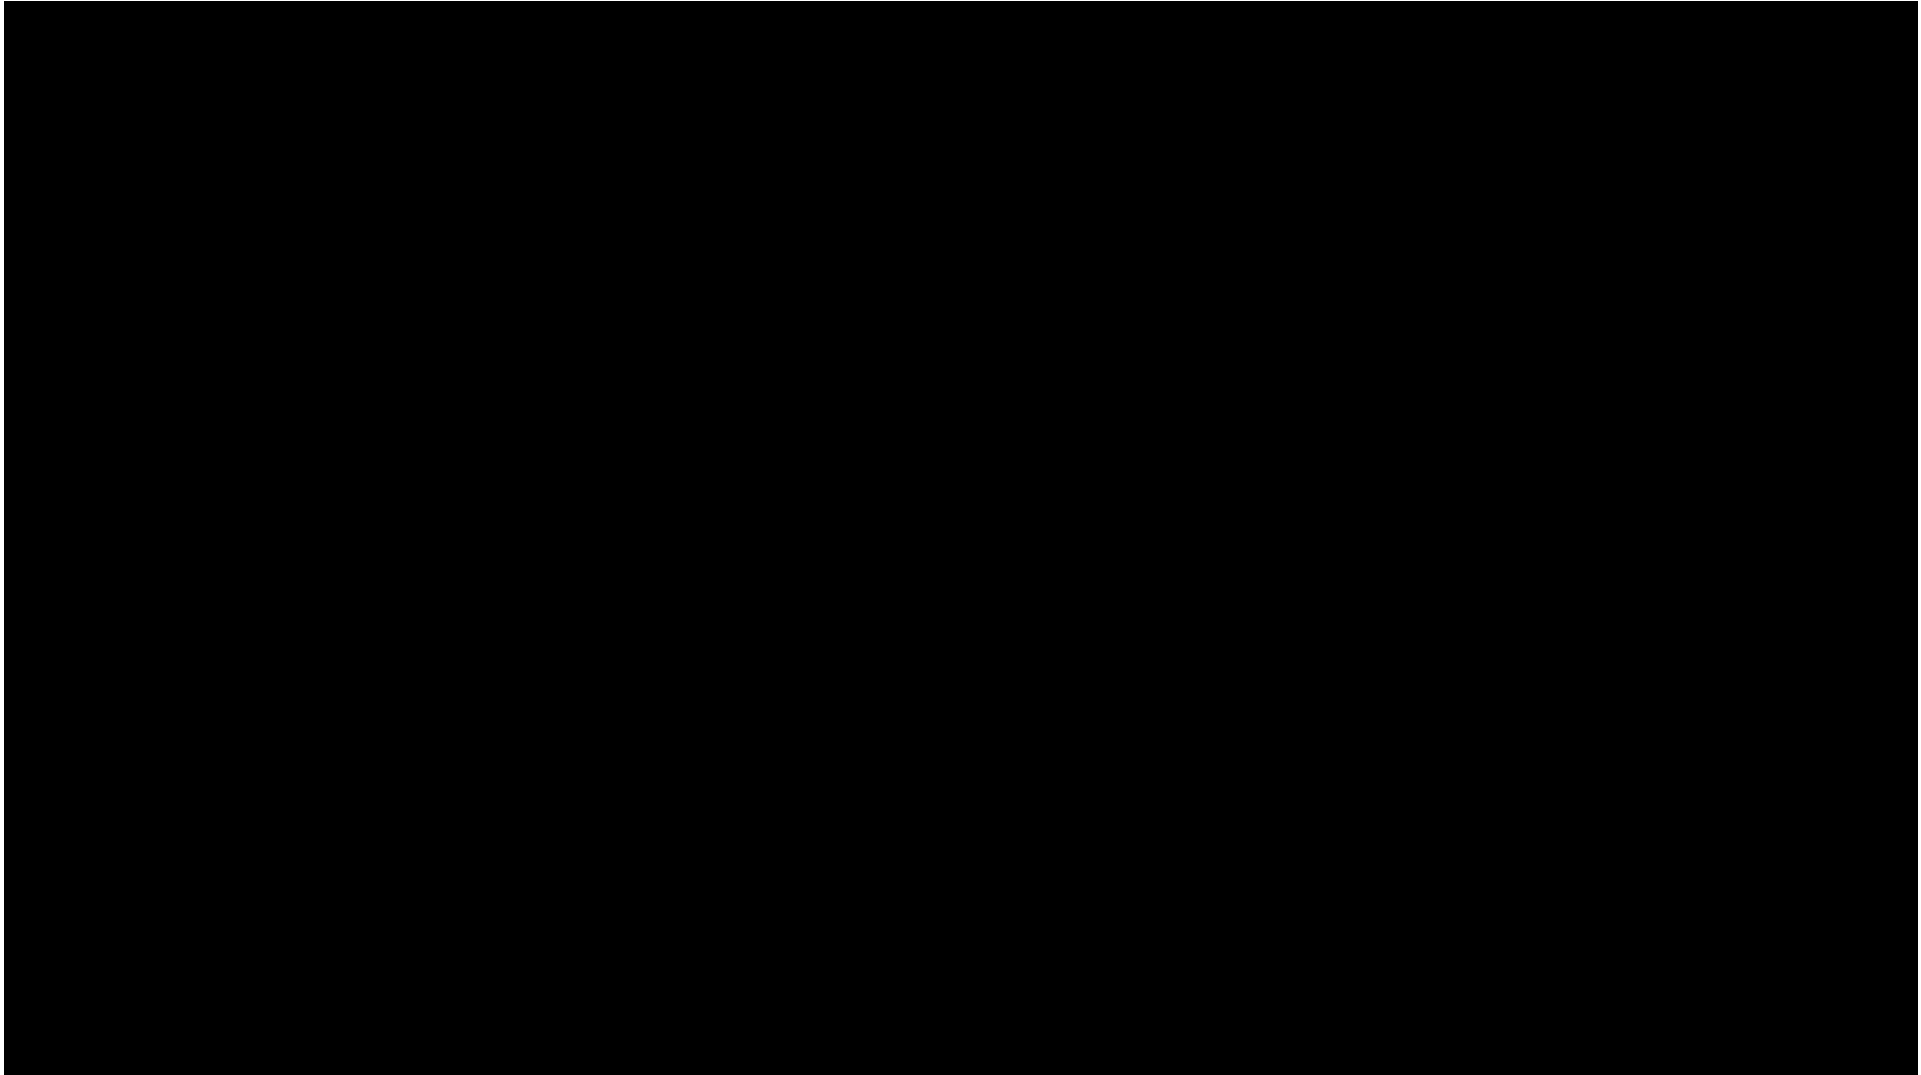

Miami-Dade-County, United States

# Part 1: Align Global Goals to Local Realities

1. What are the main water issues in your city and which SDGs are, therefore, most relevant?
2. State actions/programmes/policies to achieve each of the selected SDGs at a city scale? Think from the perspective of the decision makers!
3. What individual actions can be taken towards achieving the SDGs at local level? Think from the perspective of every individual, household, or organisation!

# Inspiration: Rocha River in Cochabamba, Bolivia

# Part 1: Align Global Goals to Local Realities

1. What are the main water issues in your city and which SDGs are, therefore, most relevant?
2. State actions/programmes/policies to achieve each of the selected SDGs at a city scale? Think from the perspective of the decision makers!
3. What individual actions can be taken towards achieving the SDGs at local level? Think from the perspective of every individual, household, or organisation!

## Part 2: A Change of Context

1. Review and compare the water issues and related SDGs of your current with your previous city. Would you add any experience learnt during part 1?
2. Review and compare the actions/programmes/policies with the ones in your previous city and previously selected SDGs. Would you add any experience learnt during part 1? Would you improve them?
3. Review and compare the individual actions with the ones in your previous city and previously selected SDGs. Would you add any experience learnt during part 1? Would you improve them?

# Outcome Mapping

# Discussion

1. Hull, England and Miami-Dade-County, United States
2. Amman, Jordan and Cape Town, South Africa
3. Joint Discussion

# Thank You!
