

An aerial photograph of a coastal town and harbor. A river flows through the town, which is built on a hillside. The harbor is filled with boats and a bridge spans across it. The background shows rolling green hills under a clear sky.

Resilient Policies: Achieving SDG and UNFCCC Goals Through Resilient Water Management

A Talanoa Dialogue
World Water Week
30 August 2018

An aerial photograph of a town situated in a valley. A river flows through the town, with a bridge crossing it. The surrounding hills are covered in green vegetation. The image is semi-transparent, allowing the text to be overlaid.

Dođan Altinbilek

Vice President, World Water Council

An aerial photograph of a town situated in a valley. A river flows through the town, and a dam is visible on the left side. The surrounding landscape is hilly and green, with some buildings and infrastructure visible in the distance.

Torgny Holmgren

Executive Director, Stockholm International
Water Institute

An aerial photograph of a town situated in a valley. A river flows through the town, with a bridge crossing it. The surrounding landscape is hilly and green, with some buildings visible on the slopes. The image is slightly faded, giving it a soft, artistic appearance.

Alice Aureli

Chief of Groundwater Systems and Human Settlements
Section, UNESCO International Hydrological Programme - IHP

TALANOA DIALOGUE

FOR CLIMATE AMBITION

Where are we?

Where would we like to go?

How will we get there?

An aerial photograph of a town situated in a valley. A river flows through the town, with a bridge crossing it. The surrounding hills are covered in green vegetation, and the sky is clear. The text is overlaid on the bottom left of the image.
