

An aerial photograph of the Luangwa River in Zambia, showing a wide, meandering river with multiple channels and sandbars, surrounded by dense green forest. The river flows from the top left towards the bottom right, with a large, light-colored sandbar in the foreground. The surrounding landscape is a vast, flat expanse of green forest.

Keep the Luangwa Flowing Campaign

The Luangwa River

Martin Harvey / WWF

A wide-angle photograph of a river at sunset. The sun is low on the horizon to the left, casting a golden glow across the sky and reflecting on the water. The sky is filled with scattered, light-colored clouds. The river flows from the left towards the center, with a wide, flat, sandy or muddy bank on the right. The overall scene is serene and natural.

Advocate that the Luangwa River main stem and selected key pristine tributaries are protected as Water Resource Protection Areas
