

African Network of Basin Organisations

ANBO

CREATION

July 2002 in Dakar, on the initiative of the group of basins of West Africa and Lake Chad

with the support of:

- ◉ GWPO (Global Water Partnership for West Africa) and
- ◉ INBO (International Network of Basin Organisations)

Mission

- **ANBO main mission is to :**
- bridge the many gaps observed in communication, exchange of experience, expertise and know-how between its members in the field of IWRM
- address lack of coordination
- strengthen cooperation between managers of African lake, river and aquifer basin organizations
- Bring these organizations together in a single representative institution
- Support the African Basin Organizations

ANBO Vision

The ANBO vision is to

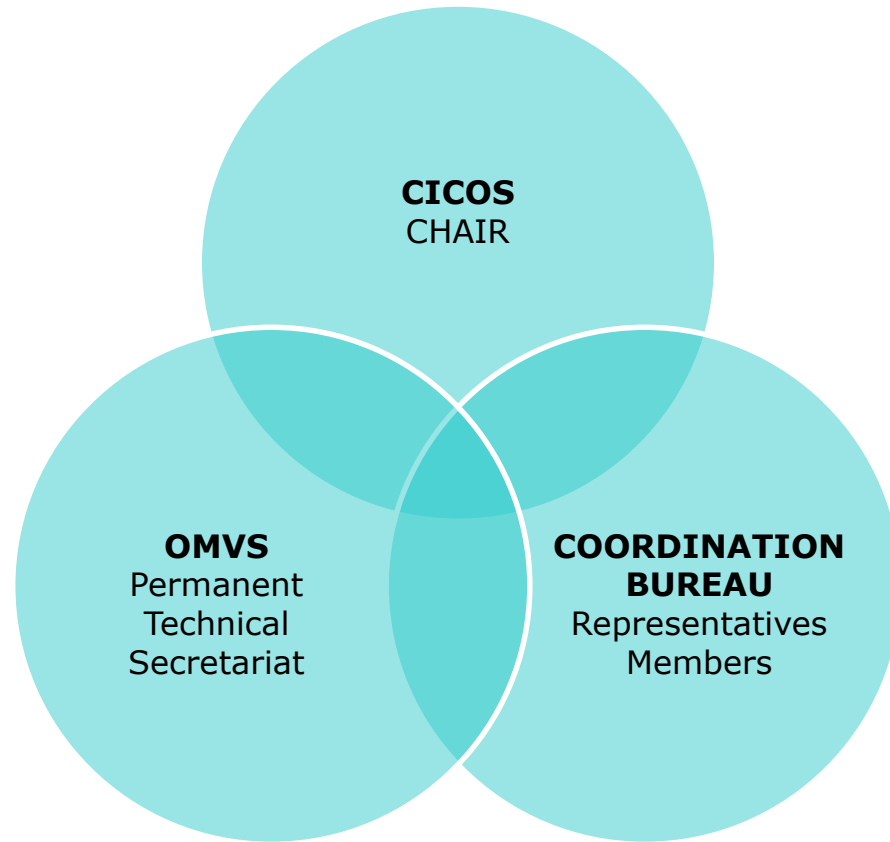

1. Contribute tangibly to Africa Water Vision for the Welfare of african people by 2025
2. Create opportunities for L/RBOs to take the lead in conflict resolution, peace et developpement for its members

Objectives

- develop cooperation between the African organisations in charge of transboundary water management (Surface and Ground Waters)
- favour exchange of experiences and expertise among them;
- support peaceful and sustainable management and development of transboundary water resources on the African continent;
- strengthen and network with partners for transboundary water issues

GOVERNANCE

MEMBERS

- ◉ Basin organizations (national or cross-border);
- ◉ Institutions and governmental organizations in charge of water management in Africa;
- ◉ AMCOW
- ◉ African Union

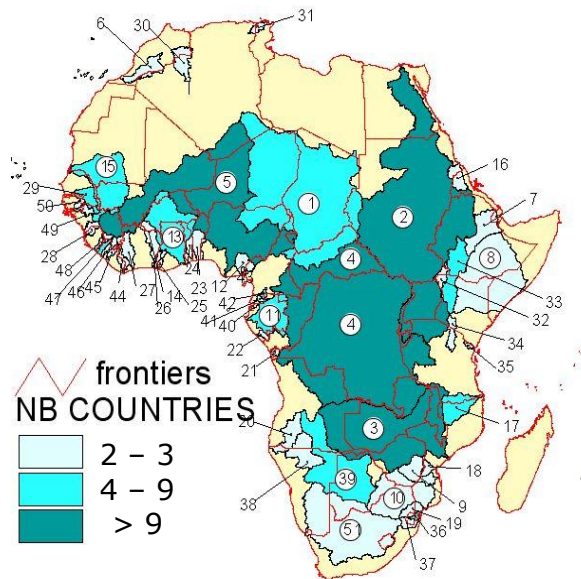

Observers/Partners

- INBO
- GWPO
- EU
- IOwater
- MAE/France
- PNUD/GEF
- GtZ
- African Water Facility / ADB
- IW-LEARN
- Etc.

The Network

52 Institutions including 25 Basin Organizations

ACHIEVEMENTS

- AWIS;
- SITWA : Strategy and Action Plan for 2015-2019;
- General Assembly every 2 years

Challenges/Opportunities

- PROVISION OF SERVICES TO ITS MEMBERS
- A FINANCIALLY SUSTAINABLE STRUCTURE
- A STRONG COMMUNICATION AND ADVOCACY ROLE
- DEVELOPMENT OF STRATEGIC PARTNERSHIPS AND PROGRAMS
- IMPLEMENTATION OF PNUD/GEF PROJECT

UNDP-GEF PROJECT

PROJECT TITLE: STRENGTHENING THE INSTITUTIONAL CAPACITY OF AFRICAN NETWORK OF BASIN ORGANIZATION (ANBO), CONTRIBUTING TO THE IMPROVED TRANSBOUNDARY WATER GOVERNANCE IN AFRICA

Project Objective/Components

- **Overall Objective:** Strengthen coordination/collaboration capacity of African Lake and River Basin Organizations (L/RBOs), Commissions/cooperative frameworks for transboundary groundwater management and their Member States for improved transboundary water governance in Africa through the improved support by the African Network of Basin Organization (ANBO)
- The project has two components. **Component 1:** Strengthening ANBO's institutional and technical capacity as a technical arm of AMCOW, and **Component 2:** Supporting the capacity building of L/RBOs, Groundwater Commissions and RECs to foster transboundary cooperation.

Project Approach

BUILD ANBO CAPACITY TO BE A SERVICE PROVIDER TO ITS MEMBERS

- Identify Clients
(members/countries/partners)
- Identify Services needed
- Services Areas:
 - climate change (innovative)
 - Groundwater (innovative)
 - information exchange (cross cutting)
 - sustainable financing (cross cutting)

Project Results Framework

- **Component 1: Strengthening ANBO's institutional and technical capacity as a technical arm of AMCOW**
- Outcome 1.1: Institutional capacity of ANBO strengthened to deliver on its statutory mandates.
- Outcome 1.2. ANBO's technical, knowledge and information management capacity strengthened to serve as a technical arm of AMCOW focusing on transboundary water resources management, including groundwater
- Outcome 1.3: ANBO's capacity as a clearing house for AMCOW on information related to climate change, vulnerability analysis and adaptation strategies of African transboundary basins strengthened.
- Outcome 1.4: ANBO communication, monitoring, evaluation and adaptive management capacity strengthened
- **Component 2: Component 2: Supporting the capacity building of Lake/River Basin Organizations, Groundwater Commissions and RECs to foster transboundary cooperation**
- Outcome 2.1: Information and data management capacity of L/RBOs and Groundwater Commissions strengthened.
- Outcome 2.2: RECs capacity to foster international cooperation among its member states to manage transboundary waters strengthened.
- Outcome 2.3. Financing/Resources mobilization capacity of L/RBOs and Groundwater Commissions strengthened.

UP COMING EVENTS

- **YOU ARE ALL INVITED TO THE PNUD-GEF PROJECT INCEPTION MEETING AND ANBO GENERAL ASSEMBLY TO BE HELD IN TUNIS IN OCTOBER 2018**

**THANK
YOU**
