

Integrating Water and Energy Bills to Construct The Wastewater Infrastructure

- Problematic in 2002
 - Lack of wastewater treatment.
 - 21% of the population not connected to the network
 - Investment needs for sanitation infrastructure : 320 M€
 - The wastewater business generates over 25 years, 170 M€

Financing Gap : 145 M€

- Methodolgy Apraoch
 - Multiservice delegated management contract: Sanitation, drinking water and electricity
 - Self-financing contract for 25 years
 - Use the surplus generated by the water and electricity activities to finance the sanitation funding gap
