

Swedish Research Council / Formas / Swedish National Research Programme on Antibiotic Resistance

Challenges of Contaminants of Emerging Concerns, including Antibiotic Resistant Bacteria

AGENDA | Wednesday 28 August | 16.00-17.30 | Room: M2

The three **Joint Programming Initiatives** (JPIs): Water JPI, JPI Oceans and JPI AMR expect to launch a **co-funded transnational and multi-disciplinary call 2020** for research and innovation proposals. Showcase will enable **stakeholders** and **end-users** to present their own challenges, influence and improve the objectives and strategies developed in the call in order to address the most urgent scientific challenges and priorities and, thus, a **more efficient Water policy** implementation.

16:00 Welcome and Introduction

Jan-Ingvar Jönsson (Secretary General, Swedish Research Council), **John Tumpane** (Head of the Department for Environmental Sciences, Formas) as well as **Patriq Fagerstedt** (Senior Research Officer, Swedish Research Council).

16:10 Keynote Session | 20 min per speaker incl. Q&A |

Karin Wiberg (Professor, Swedish University of Agricultural Sciences), and **Carl-Fredrik Flach** (Associate Professor, Gothenburg University).

16:50 Panel Discussion

Pavel Misiga (Head of the Circular Economy & Bio-based Systems Unit, European Commission), **Alexander Keucken** (Researcher Manager, Public Joint-Stock Utility Vatten & Miljö i Väst AB), **Kia Salin** (Scientific Director of Sustainability, Medical Products Agency), as well as the two keynote speakers **Karin Wiberg** and **Carl-Fredrik Flach**.

The session will be chaired by: John Tumpane.

17:20 Concluding Remarks from Panel Speakers

ABOUT

World Water Week is a conference organised by SIWI. The conference focuses on new thinking and positive action toward water-related challenges and their impact on the world's environment, health, climate, economic and poverty reduction.

The present showcase is supported by Formas, and the Swedish National Research Programme on Antibiotic Resistance.
