ASIAN WATER DEVELOPMENT OUTLOOK 2016

STRENGTHENING WATER SECURITY
IN ASIA AND THE PACIFIC

ADB

ASIAN DEVELOPMENT BANK

AWDO 2020

Approach and Progress

Stockholm World Water Week

29 August 2019

Silvia Cardascia ADB

AWDO

Resilience to Water-Related Disaster Risks

Build resilient **communities** that can adapt to change

Environmental Water Security

Restore healthy **rivers** and ecosystems

Household Water Security

Satisfy **household** water and sanitation needs in all communities

Economic Water Security

Support productive **economies** in agriculture and industry

Urban Water Security

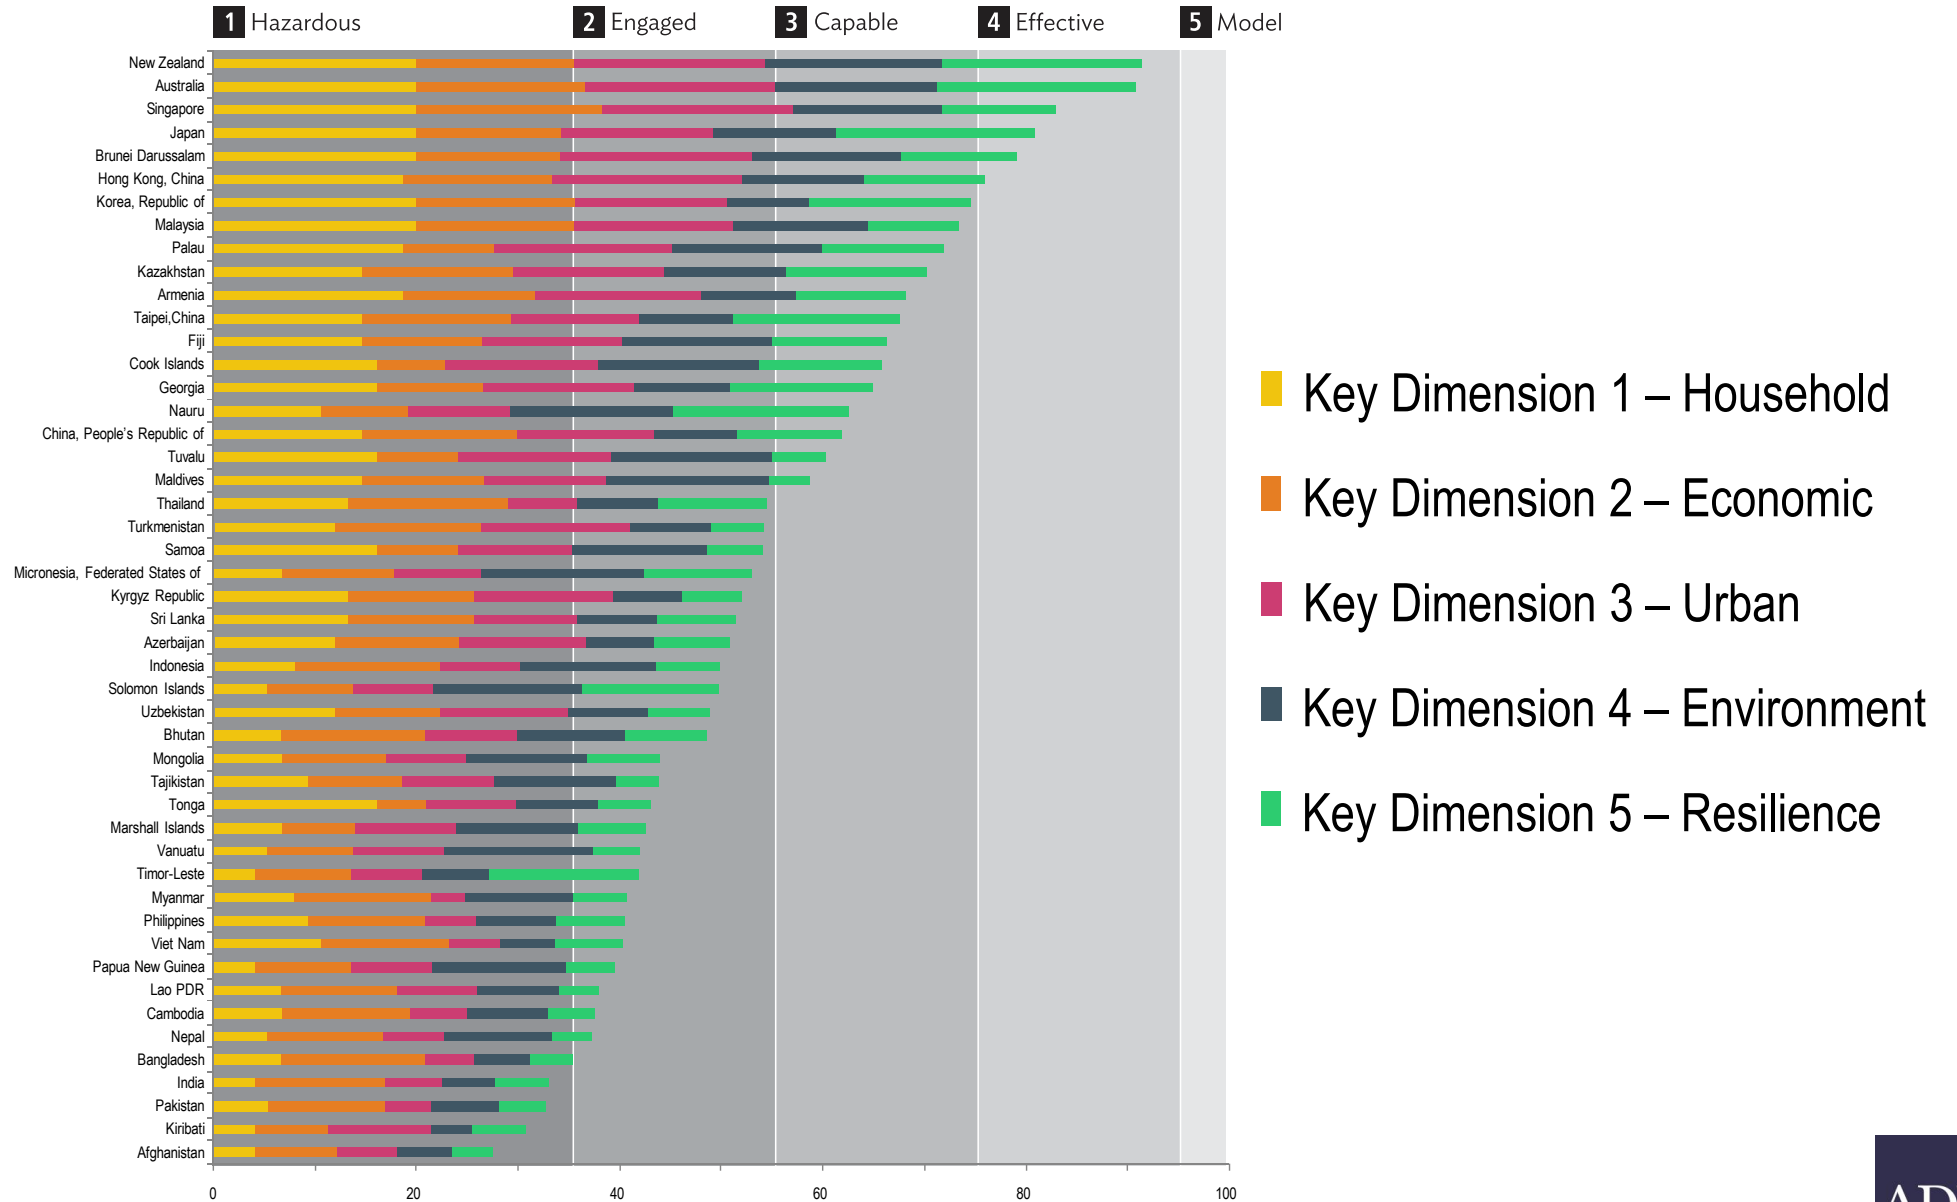

Develop vibrant, livable **cities** and towns

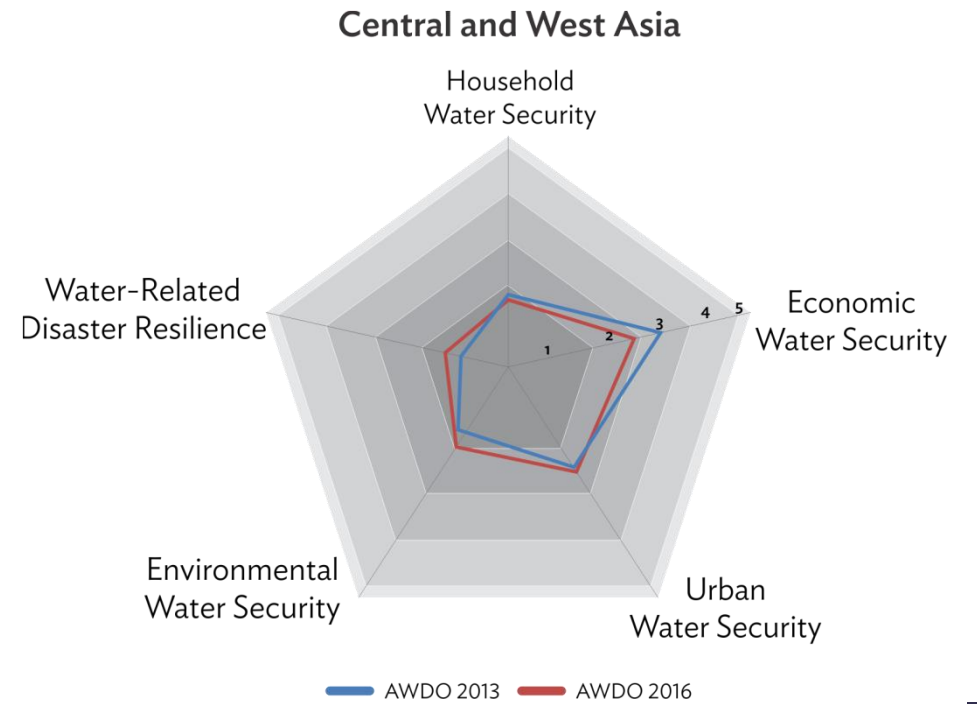

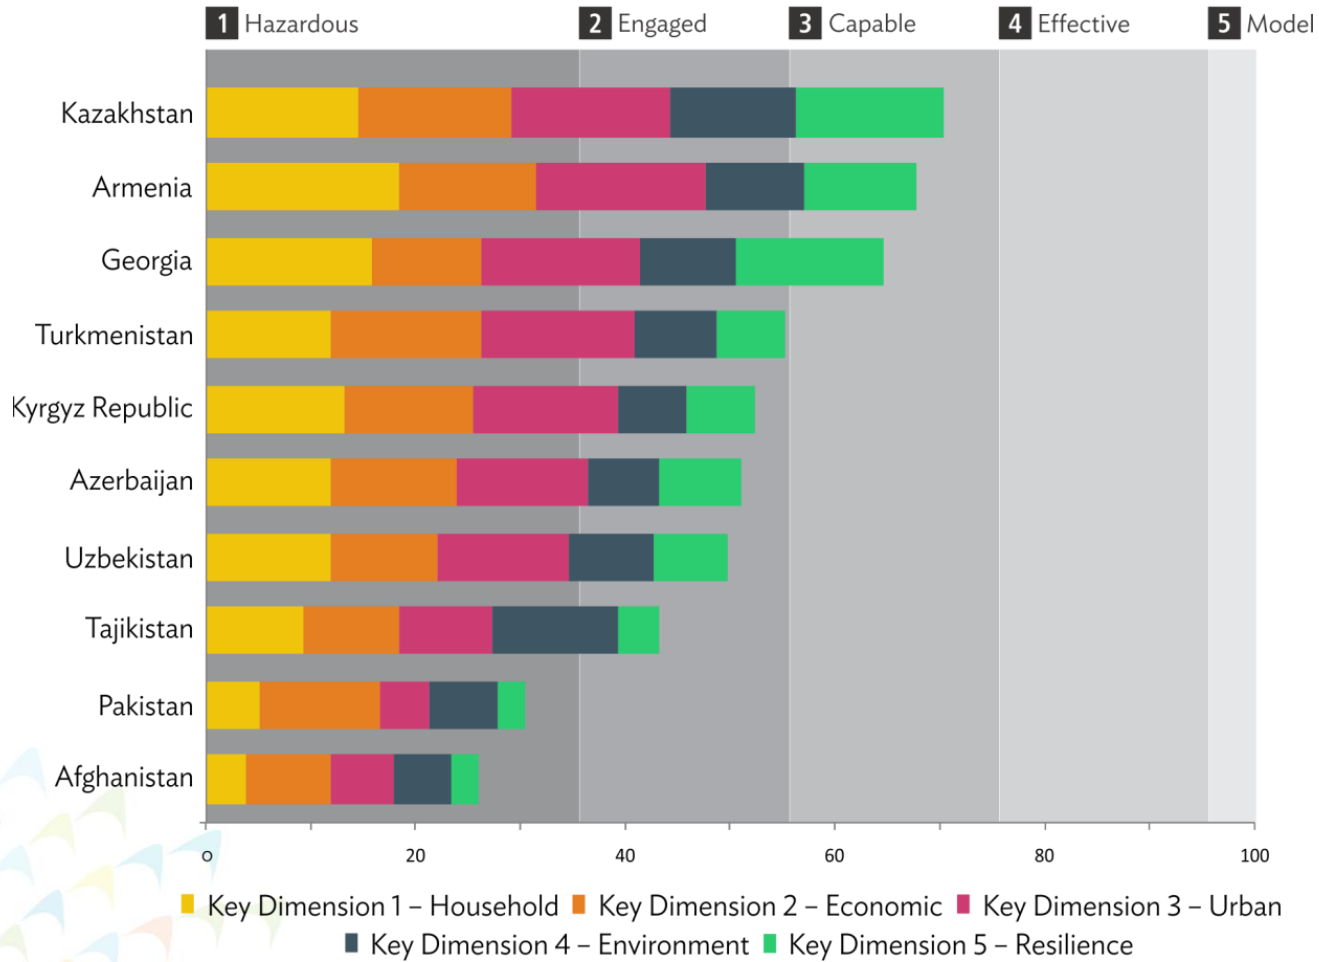

Objectives – for AWDO 2020

- Be a **communication tool** on Water Security for the Asia and Pacific region
 - by providing an overview of Water Security of Development Member Countries (DMCs) in **five key dimensions**
- Provide a basis for **comparison** with other DMCs
 - or, within a DMC, for comparison with other states, provinces or river basins
- Follow the **progress over time** DMCs make in achieving water security (2013-2016-2020)
- **Guide trailing ones** to become water secure by guiding policy and institutional reforms
 - supporting Operational Departments of ADB in their communication with the DMCs

48 Countries of Asia-Pacific region, incl. Advanced Economies (AWDO 2016)

CENTRAL AND WEST ASIA

What will be new in AWDO 2020?

- Refining / improving the **Methodology**
 - e.g. use of new databases, KD1 now only rural, KD5 to include the hazard
- To include dedicated chapters on **Finance and Governance**
 - to be contributed by the OECD
- To include **Country Case studies** (incl. Thailand, India, Timor-Leste)
- More attention for **link with SDGs**, inclusiveness, transboundary issues
- Align AWDO with the new **ADB Water Strategy**

Thanks
