

The HSBC Water Programme

The HSBC Water Programme is a five year, US\$100m partnership with Earthwatch, WaterAid and WWF.

The programme is delivering water provision, protection, research and education across the world, enabling economies to prosper and supporting socio-economic development.

Water Stories:

A photographic exhibition

'Water Stories' documents our most precious natural resource. Here, American photographer Mustafah Abdulaziz presents images from an ongoing study of the global water crisis, in collaboration with the HSBC Water Programme.

Strandvägen, Kajplats 18, 114 56, 11 - 30 August

Change doesn't happen overnight: challenges from the HSBC Water Programme

This event will explore challenges faced by partners involved in delivering the programme. Speakers will share their challenges of working collaboratively with businesses, communities, governments and NGOs.

Tuesday, 25 August, 11.00 - 12.30. NL Pillar Hall

Find out more at World Water Week

Earthwatch is participating in the *Information Technologies for a Smarter Water Future* workshop from 09:00 – 12.30 on Tuesday, August 25 and has a session on Citizen Science on the SIWI Sofa from 13.15 – 13.45 on Thursday, August 27. Earthwatch will demonstrate the scientific methodologies in the schoolyard at 11:00 and 14:00 from Sunday to Thursday.
